

Ken Fish asked me to contact you to let you know that I attended the Kingdom Warfare Conference in 1993... I did attend the Deliverance workshop in which Ken spoke, he was the sole speaker as I recall. It was held in the large main auditorium as there were so many people who took the workshop... maybe 1500 or so, not sure of number exactly. I remember he did a great job, it was really good curriculum, with lots of great ministry of deliverance as well... that is saying a lot as I had not only taken many Vineyard courses of all types since 1983 and attended dozens of conferences or seminars since then.... and as I say below, taught it myself.

I became part of the Vineyard after being invited to visit the Vineyard Newport, I was then invited to join them on the team that John Wimber was taking to the UK in 1986. We did 3 conferences and it changed my life for the very very best. I will never forget going through security in Belfast, Ireland behind John and Carol Wimber... the soldiers carried machine guns, which we had never seen in an American Airport... I watched John and Carol get frisked pretty intensely as we all were.... my comment to John was that I was not sure if this was the best example of the "laying on of hands"...

I moved to California that fall and wound up on full time staff of the Vineyard Newport Beach. My Senior Pastor was John McClure. I served there for 8 years. I did all the Ministry Team training at the Vineyard Newport, including teaching on Spiritual Warfare and ministry to the demonized. I led the ministry teams for all services, took teams out to other churches to teach Ministry team training a few times. I wore quite a few other hats while there, mostly all at the same time... I loved it all.

In 1993, I met my husband at a National Pastor conference... I wound up moving to San Francisco Bay area in 1994, when we married as Brian White, was a Vineyard Pastor at the time in San Jose, CA. I still miss the Beach!

As an aside, Brian attended Fuller Seminary in Pasadena when Ken was there... they know each other since the early 80's... I met Ken personally about 3 or 4 years ago for the 1st time as Bri and Ken reconnected then. Bri is actually accompanying Ken to Australia next week for 3 weeks.... maybe you will get a chance to meet him. I am very disappointed I cannot go with them.... but hopefully the next time.

I may sound like I am lobbying for a job or am making this email all about me... but truly, I wanted to give you some background on myself so you would have a true perspective of where I am coming from... I think that is important...

I will end with this: I have never heard anyone in my experience teach this type of course any better than Ken at that workshop. As I said before, he did a great job.

Blessings and thrilled to hear all God is doing in your "neighborhood"! Please free to contact me if you have any further questions...
